Fellowship House Campus

Centerstone's Fellowship House Campus, located at 800 North Main Street in Anna, provides services to people who suffer with substance use disorders and co-occurring problems. Insurances accepted are Illinois Medicaid or Illinois Medicaid-Managed Care. Individuals with no insurance and no/low income may be eligible.

Our treatment programs are designed to provide clients with the essential tools to begin their path to recovery. Clients work with our professional staff to set personal goals and discover what will work best for them in their journey to overcome addiction.

Programs include:

Withdrawal Management / Detox

Available for men and women 18 years or older, our medically-monitored withdrawal management program provides a safe environment with professional assistance during the withdrawal of alcohol and other drugs. It also provides physical assessment, good nutrition, rest, screening for additional services and referrals to other programs when necessary.

Residential Program

Currently available for men who are 18 years or older,

we provide 25 or more hours of treatment per week. Before beginning treatment, a clinical assessment is conducted to determine the client's unique needs. Each client is then assigned a case manager who provides individual counseling, assigns groups, assists with referrals, and follows the treatment plan throughout the client's treatment at Fellowship House.

Aftercare

We provide detailed after care planning to help prevent the chances of relapse. After care services often include the development of a support network, individual and family education, group counseling, and adjustment to a substance-free lifestyle.

About Centerstone

Centerstone is a not-for-profit health system providing mental health and substance use disorder treatments. Services are available nationally through the operation of outpatient clinics, residential programs, the use of telehealth and an inpatient hospital. Centerstone also features specialized programs for the military community, therapeutic foster care, children's services and employee assistance programs. Centerstone's Research Institute provides guidance through research and technology, leveraging the best practices for use in all our communities. Centerstone's Foundation secures philanthropic resources to support the work and mission of delivering care that changes people's lives.
