

SETUP OUTLOOK ON YOUR IPHONE

Download Edge from the App Store.

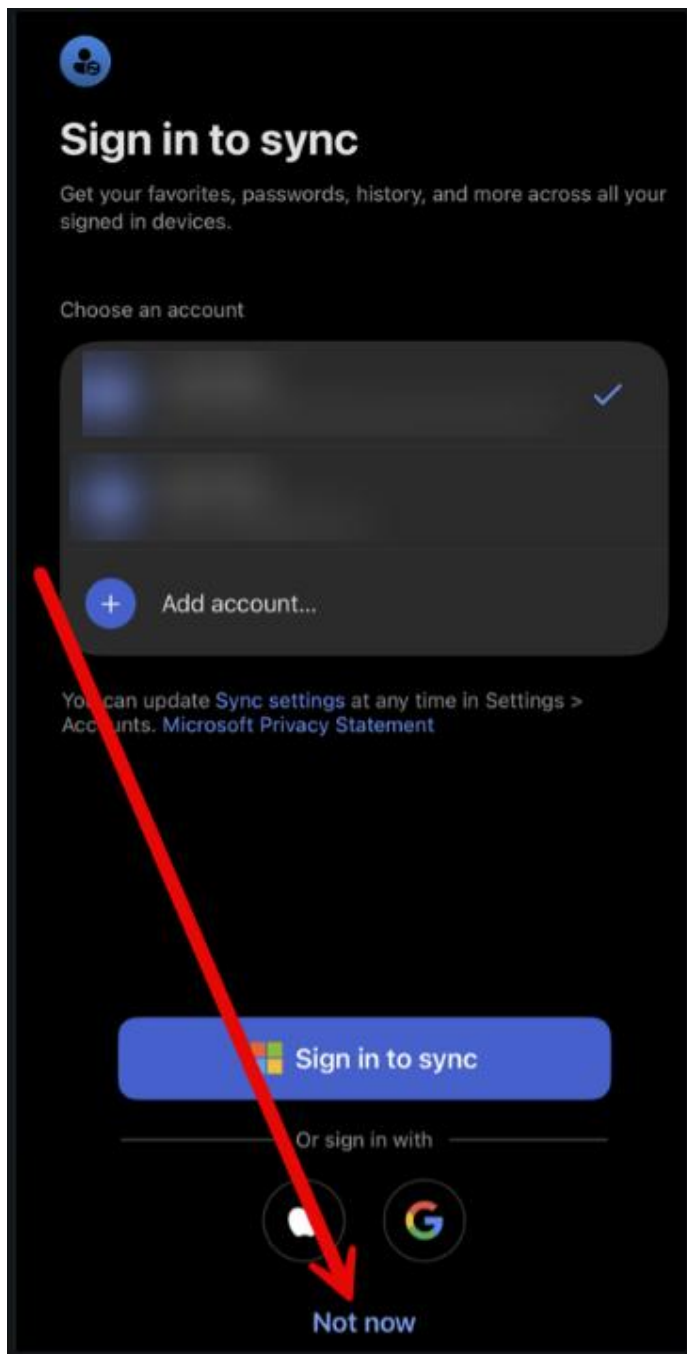

If you previously had Edge, when you open the application, click OK to remove the account:

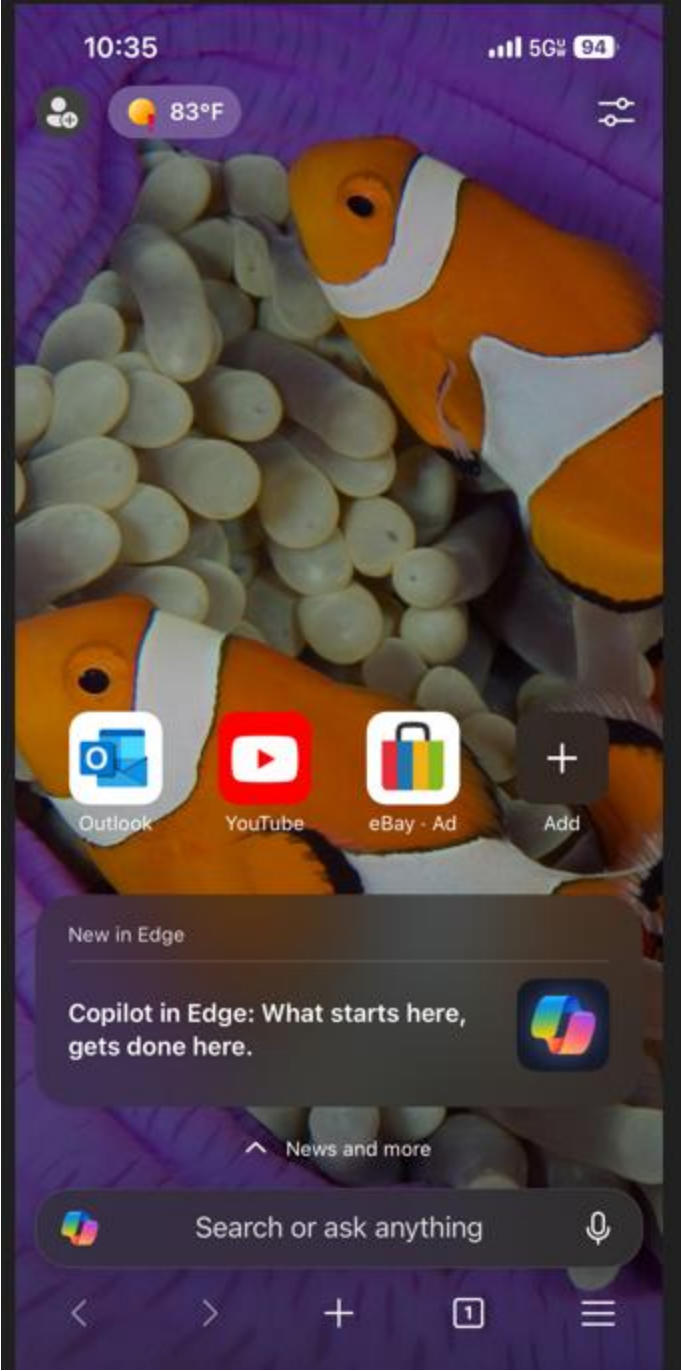

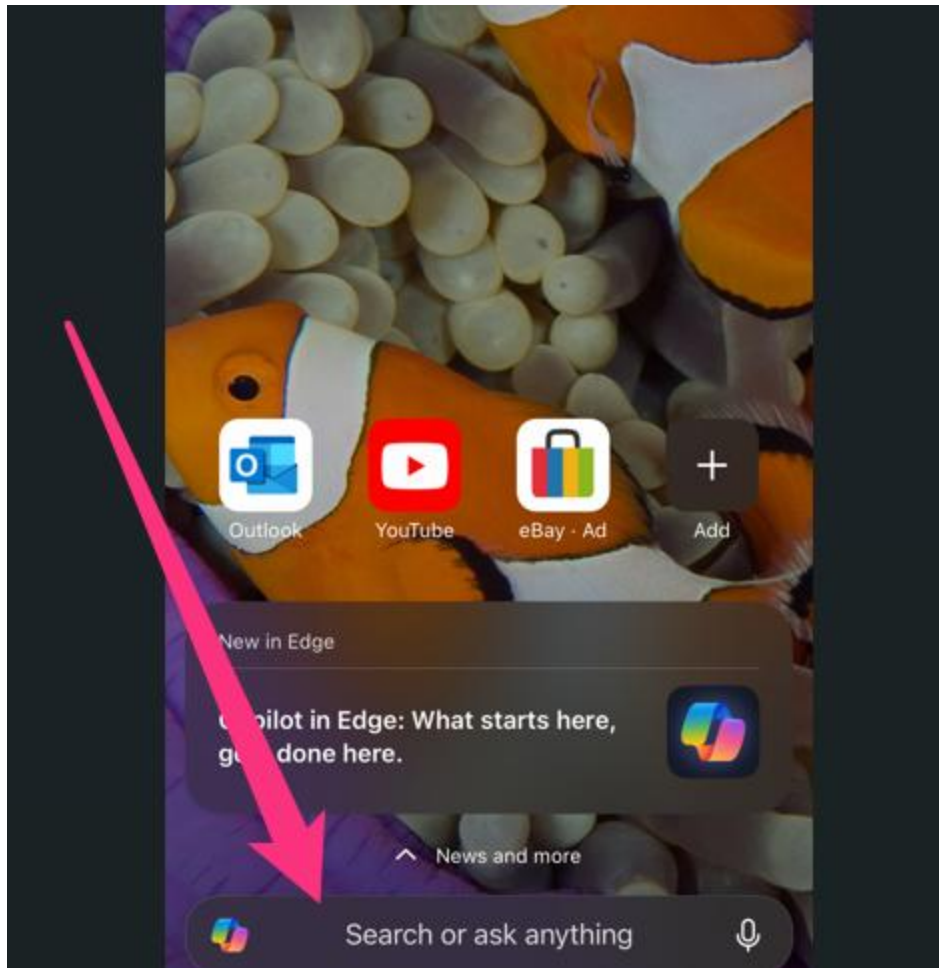

If prompted to make Edge the default browser, choose not to.

If Edge was just installed and prompts you to “sign in to sync,” select “Not now.”

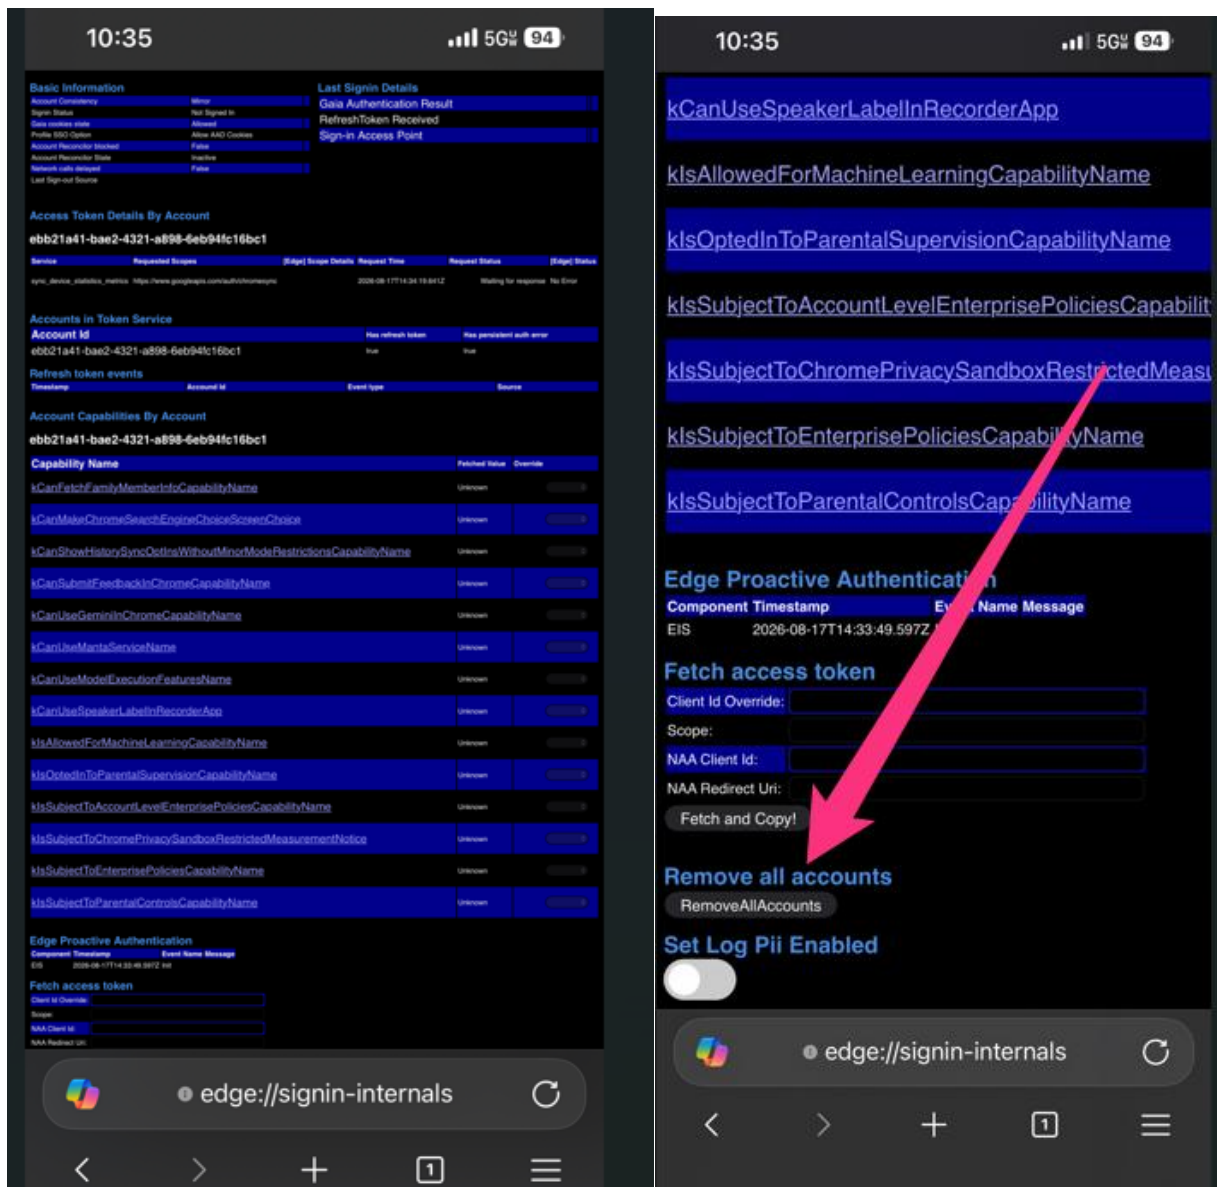

It will take you to a blank page:

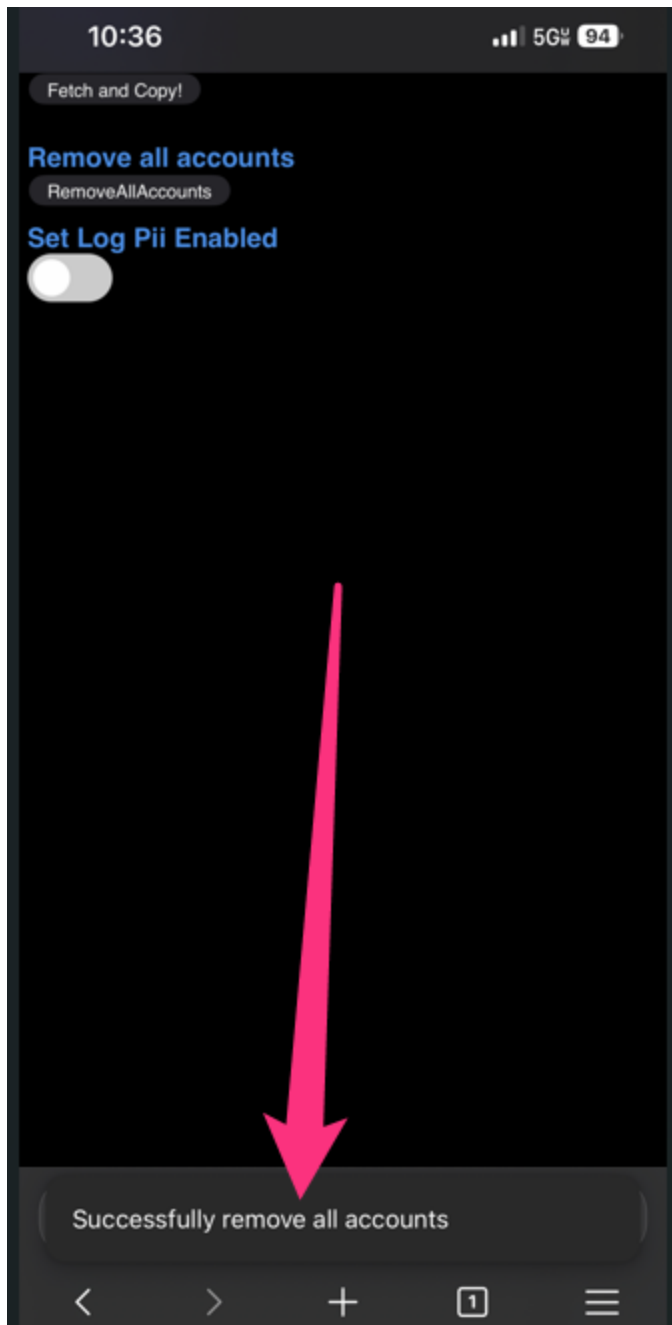

Type in the “search or ask anything” bar **edge://signin-internals/**

Zoom in at the bottom to click REMOVE ALL ACCOUNTS

It will return Successfully remove all accounts:

Close Edge and follow instructions to remove and add your Outlook.

***NOTE: If they have downloaded Company Portal previously, they will need to go to Settings> General> VPN & Device Management > Click the account> Remove the account*

Then follow the instructions from the top.
